NEW COLEMAN SITE

We officially opened a 2nd location in Coleman on Monday, July 3rd.

Our Coleman site is located at:
447 Business 141 N, Suite 4, Coleman, WI 54112

The entrance will be the third door on the side of the building (towards the back.) This site will be open weekdays 8am - 4pm. We hope this location will be convenient for the northern clients to pick up any needed supplies, but is open to any of our clients who may be in the area.

NEW - VVC FAIR SCHOLARSHIPS

APPLICATIONS DUE: JULY 18

Starting this year, VVC is offering fair scholarships for all youth livestock and dairy exhibitors. We are offering \$100 scholarships to exhibitors ages 14 & under, and \$500 scholarships to exhibitors ages 15 & older. The VVC Fair Scholarship Applications are due by Tuesday, July 18th. We encourage all exhibitors to apply.

Applications for both scholarship programs are available on our website: www.vvcvets.com or by scanning the QR Code above.

Application

VVC WOULD APPRECIATE YOUR FEEDBACK

To help us improve, VVC is welcoming your feedback following a service call. Starting in July, there will be a brief (1-2 minutes) survey about your experience working with a VVC vet available on our website. Responses can be completely anonymous if you'd prefer, but you may also leave your name if you'd like someone to follow up with you.

Additionally, each time you receive a medical record email, there will be a link to the same survey. Please call the office if you are not receiving these medical record emails so that we can be sure your email address is on file. Thank you for helping us to serve you and your farm better!

To access the feedback survey - go to www.vvcvets.com or scan the QR code

OUR TEAM CONTINUES TO GROW THIS SUMMER

In addition to adding a 2nd location, we also continue to grow our team. Molly Miller, Katie Smits & Jennifer Balfanz joined our staff this past spring. Dr. Kaylan Risacher joined in June as our newest & 17th veterinarian. If you see these new faces in our clinic or out on your farm, please join us in welcoming them!

MOLLY MILLER GENETIC TECHNICIAN

Molly joined VVC as a genetic technician in April 2023. She is from Kaukauna, WI and she grew up working on a local dairy farm. She attended Northern Michigan University where she received an Associate's Degree in surgical technology, and a Bachelor's Degree in clinical health science. In her free time, she loves to hunt and fish up north in Pickerel. She also enjoys spending time with family and friends, and her dog, Gus.

KATIE SMITS LAB TECHNICIAN

Katie joined VVC as a lab technician in April 2023. Katie grew up in Freedom, Wisconsin. She attended Fox Valley Technical College where she earned her Associate's degree in Agri-Business/Science Technology in 2018. She currently resides in Kaukauna with her husband and daughter. Most of her free time is spent on her family's farm where she has her own Cow/Calf beef herd. She also enjoys being up north with her family where they do a lot of fishing and boating.

JENNIFER BALFANZ VETERINARY ASSISTANT

Jennifer joined us in May 2023 as a veterinary assistant. She recently graduated from UW River Falls with her bachelor's degree in Animal Science with a meat emphasis. She will be continuing her education to receive her CVT degree while working at VVC. Jennifer grew up in Milwaukee and she enjoys fishing, archery, softball, volleyball, and spending time with family & friends. She is very excited to begin her career with VVC and to continue learning about veterinary care.

DR. KAYLAN RISACHER DAHLKE ASSOCIATE VETERINARIAN

Dr. Kaylan grew up in Wright, Minnesota on a beef cow/calf operation, and she attended veterinary school at the University of Minnesota College of Veterinary Medicine. Following graduation, she joined VVC in June 2023 as our 17th veterinarian. In her free time she enjoys helping on her family farm, fishing and kayaking with her husband, snowmobiling, and volunteering with the 4-H program. She cannot wait to meet and start working with clients!
